- Modular service offerings available as add-ons

Choose the right service plan

Evosep Service Plans are available with different coverage and response time guarantees.^{1, 2}

Endurance Service

Endurance service is recommended to keep your Evosep One running at its best, while covering defects and breakdowns of expensive spare parts. This includes spare parts coverage, one scheduled Preventive Maintenance visit, and priority remote support.

Performance Service

On top of what is included in the Endurance service, the Performance service covers wear parts. This ensures maximum uptime and that Evosep One maintenance and associated costs are under control. Fast on-site response time reduces operational risks.

Excellence Service

For complete peace of mind, the Excellence Service offers comprehensive managed support by Evosep Experts, including user troubleshooting and wear part replacement (remotely and on site within 72 hours) on top of the Performance Service benefits.

Preventive Maintenance

Keeping the Evosep One operational requires both regular user maintenance as well as annual specialized service carried out by trained experts.

The Preventive Maintenance (PM) visit replaces the valve rotors and checks the overall system performance.
